WORKERS COMPENSATION CERTIFICATION

The undersigned declares that he or she is an authorized representative of Solar Star California XXVI, LLC, (hereinafter referred to as the "Contractor"), a party with the Sweetwater Union High School District (hereinafter referred to as the "District") to a Power Purchase Agreement hereby Contractor will install, operate and maintain solar photovoltaic systems ("Systems") on District property leased to Contractor at certain District school sites pursuant to a Facilities Lease and the District will purchase 100% of the solar power generated by the Systems. The installation, operation and maintenance of the Systems shall hereinafter be referred to as the "Project."

California Labor Code section 3700 in relevant part provides:

Every employer except the State shall secure the payment of compensation in one or more of the following ways:

1. By being insured against liability to pay compensation in one or more insurers duly authorized to write compensation insurance in this State.
2. By securing from the Director of Industrial Relations a certificate of consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his employees

I am aware of the provisions of section 3700 of the California Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this Contract.

Executed this 31 day of Oct., 2012 at Richmond, California.

GENERAL CONDITIONS

Department of Transportation (DOT) and shall be able to issue a current manifest number upon transporting any hazardous material from any school site within the District.

The Contractor shall provide the District with any sample results prior to beginning Work, during the Work, and after the completion of the Work. The District may request to examine, prior to the commencement of the Work, the lead training records of each employee of the Contractor and any Subcontractor.

The Contractor hereby acknowledges, under penalty or perjury, that it:

- a. Has received notification of potential Lead-Based materials on the Owner's property.
- b. Is knowledgeable regarding and will comply with all applicable laws, rules and regulations governing work with, and disposal of Lead.

The undersigned warrants that he/she has the authority to sign on behalf of and bind the Contractor. The District may require proof of such authority.

**DOCUMENT 00700  
GENERAL CONDITIONS**

Both the Federal Occupational Safety and Health Administration ("Fed/OSHA") and the California Division of Occupational Safety and Health ("Cal/OSHA") have implemented safety orders and regulations applicable to all construction work where a contractor's employee may be occupationally exposed to lead (the "OSHA Regulations").

The OSHA Regulations apply to all construction work where a contractor's employee may be occupationally exposed to lead. The OSHA Regulations contain specific and detailed requirements imposed on contractors subject to that regulation. The OSHA Regulations define construction work as work for construction, alteration, and/or repair, including painting and decorating. It includes, but is not limited to, the following:

- a. Demolition or salvage of structures where lead or materials containing lead are present;
- b. Removal or encapsulation of materials containing lead;
- c. New construction, alteration, repair, or renovation of structures, substrates, or portions thereof, that contain lead, or materials containing lead;
- d. Installation of products containing lead;
- e. Lead contamination/emergency cleanup;
- f. Transportation, disposal, storage, or containment of lead or materials containing lead on the site or location at which construction activities are performed; and
- g. Maintenance operations associated with the construction activities described in the subsection.

Because it is assumed by the District that all painted surfaces (interior as well as exterior) within the District contain some level of lead, it is imperative that the contractor, its workers and subcontractors fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials (including title 8, California Code of Regulations, section 1532).

The Contractor must notify the District if any Work may result in the disturbance of lead-containing building materials. Any and all Work that may result in the disturbance of lead-containing building materials must be coordinated through the District. A signed copy of this Certification must be on file prior to beginning Work on the Project, along with all current insurance certificates.

### 3. Contractor's Liability

If the Contractor or any Subcontractor fails to comply with any applicable laws, rules, or regulations, and that failure results in a site or worker contamination, the Contractor will be held solely responsible for all costs involved in any required corrective actions, and shall defend, indemnify, and hold harmless the District, pursuant to the indemnification provisions of the Contract, for all damages and other claims arising therefrom.

If lead disturbance is anticipated in the Work, only persons with appropriate accreditation, registrations, licenses, and training shall conduct this Work.

It shall be the responsibility of the Contractor and any Subcontractor to properly dispose of any and all waste products, including, but not limited to, paint chips, any collected residue, or any other visual material that may occur from the prepping of any painted surface. It will be the responsibility of the Contractor to provide the proper disposal of any hazardous waste by a certified hazardous waste hauler. This company shall be registered with the

**ATTACHMENT 1.57  
LEAD BASED PAINT CERTIFICATION**

The undersigned declares that he or she is an authorized representative of Solar Star California XXVI, LLC, (hereinafter referred to as the "Contractor"), a party with the Sweetwater Union High School District (hereinafter referred to as the "District") to a Power Purchase Agreement hereby Contractor will install, operate and maintain solar photovoltaic systems ("Systems") on District property leased to Contractor at certain District school sites pursuant to a Facilities Lease and the District will purchase 100% of the solar power generated by the Systems. The installation, operation and maintenance of the Systems shall hereinafter be referred to as the "Project."

This certification provides notice to the Contractor that:

- a. The Contractor's work may disturb lead-containing building materials.
- b. The Contractor must notify the District if any work may result in the disturbance of lead-containing building materials.

**1. Lead as a Health Hazard**

Lead poisoning is recognized as a serious environmental health hazard facing children today. Even at low levels of exposure, much lower than previously believed, lead can impair the development of a child's central nervous system, causing learning disabilities, and leading to serious behavioral problems. Lead enters the environment as tiny lead particles and lead dust disburse when paint chips, chalks, peels, wears away over time, or is otherwise disturbed. Ingestion of lead dust is the most common pathway of childhood poisoning; lead dust gets on a child's hands and toys and then into a child's mouth through common hand-to-mouth activity. Exposures may result from construction or remodeling activities that disturb lead paint, from ordinary wear and tear of windows and doors, or from friction on other surfaces.

Ordinary construction and renovation or repainting activities carried out without lead-safe work practices can disturb lead-based paint and create significant hazards. Improper removal practices, such as dry scraping, sanding, or water blasting painted surfaces, are likely to generate high volumes of lead dust.

Because the Contractor and its employees will be providing services for the District, and because the Contractor's work may disturb lead-containing building materials, **CONTRACTOR IS HEREBY NOTIFIED** of the potential presence of lead-containing materials located within certain buildings utilized by the District. All school buildings built prior to 1993 are presumed to contain some lead-based paint until sampling proves otherwise.

**2. Overview of California Law**

California Education Code section 32240 et seq. is known as the Lead Safe Schools Protection Act. Under this act, the Department of Health Services ("DHS") is to conduct a sample survey of schools in the State of California for the purpose of developing risk factors to predict lead contamination in public schools. (CA Ed. Code, § 3224 1.) Any school that undertakes any action to abate existing risk factors for lead is required to utilize trained and state-certified contractors, inspectors, and workers. (CA Ed. Code, § 32243, subd. (b).) Moreover, lead-based paint, lead plumbing, and solders, or other potential sources of lead contamination, shall not be utilized in the construction of any new school facility or the modernization or renovation of any existing school facility. (CA Ed. Code, § 32244.)

DRUG FREE WORKPLACE CERTIFICATION**

The undersigned declares that he or she is an authorized representative of Solar Star California XXVI, LLC, (hereinafter referred to as the "Contractor"), a party with the Sweetwater Union High School District (hereinafter referred to as the "District") to a Power Purchase Agreement hereby Contractor will install, operate and maintain solar photovoltaic systems ("Systems") on District property leased to Contractor at certain District school sites pursuant to a Facilities Lease and the District will purchase 100% of the solar power generated by the Systems. The installation, operation and maintenance of the Systems shall hereinafter be referred to as the "Project."

This form is required from all successful bidders pursuant to the Drug-Free Workplace Act of 1990 (California Government Code Section 8350 et seq.) The Drug-Free Workplace Act of 1990 requires that every person or organization awarded a contract or grant for procurement of any property or service from any State agency must certify that it will provide a drug-free workplace by doing certain specified acts. In addition, the Act provides that each contract or grant awarded by a State agency may be subject to suspension of payments or termination, and the contractor or grantee may be subject to debarment from future contracting, if the contracting agency determines that specified acts have occurred.

Pursuant to California Government Code Section 8355, every person or organization awarded a contract or grant from a State agency shall certify that it will provide a drug-free workplace by doing all of the following:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in their workplace and specifying actions which will be taken against employees for violations of the prohibition;
2. Establishing a drug-free awareness program to inform employees about all of the following:
  - a. The dangers of drug abuse in the workplace;
  - b. The person's or organization's policy of maintaining a drug-free workplace;
  - c. The availability of drug counseling, rehabilitation and employee-assistance programs;
  - d. The penalties that may be imposed upon employees for drug abuse violations.
3. Requiring that each employee engaged in the performance of the contract or grant be given a copy of the statement required by subdivision "A," and that, as a condition of employment on the contract or grant, the employee agrees to abide by the terms of the statement.

I, the undersigned, agree to fulfill the terms and requirements of the Drug-Free Workplace Act as it now exists or may hereinafter be amended. Particularly, I shall abide by California Government Code Section 8355 when performing the Contract for the Project by:

- a. Publishing a statement notifying employees concerning the prohibition of controlled substance at my workplace;
- b. Establishing a drug-free awareness program;
- c. Requiring that each employee engaged in the performance of the contract be given a copy of the statement required by Section 8355(a) and agree to abide by the terms of that statement.

HAZARDOUS MATERIALS CERTIFICATION

The undersigned declares that he or she is an authorized representative of Solar Star California XXVI, LLC, (hereinafter referred to as the "Contractor"), a party with the Sweetwater Union High School District (hereinafter referred to as the "District") to a Power Purchase Agreement hereby Contractor will install, operate and maintain solar photovoltaic systems ("Systems") on District property leased to Contractor at certain District school sites pursuant to a Facilities Lease and the District will purchase 100% of the solar power generated by the Systems. The installation, operation and maintenance of the Systems shall hereinafter be referred to as the "Project."

Contractor hereby certifies that no Asbestos, or Asbestos-Containing Materials, polychlorinated biphenyl (PCB), or any material listed by the federal or state Environmental Protection Agency or federal or state health agencies as a hazardous material, or any other material defined as being hazardous under federal or state laws, rules, or regulations ("New Hazardous Material"), shall be furnished, installed, or incorporated in any way into the Project or in any tools, devices, clothing, or equipment used to affect any portion of Contractor's work on the Project for District.

Contractor further certifies that it has instructed its employees with respect to the above-mentioned standards, hazards, risks, and liabilities.

Asbestos and/or asbestos-containing material shall be defined as all items containing but not limited to chrysotile, crocidolite, amosite, anthophyllite, tremolite, and actinolite. Any or all material containing greater than one-tenth of one percent (.1%) asbestos shall be defined as asbestos-containing material.

Any disputes involving the question of whether or not material is New Hazardous Material shall be settled by electron microscopy or other appropriate and recognized testing procedure, at the District's determination. The costs of any such tests shall be paid by Contractor if the material is found to be New Hazardous Material.

All Work or materials found to be New Hazardous Material or Work or material installed with "New Hazardous Material" containing equipment will be immediately rejected and this Work will be removed at Contractor's expense at no additional cost to the District.

Contractor has read and understood SUHSD DOCUMENT entitled "Hazardous Materials Procedures & Requirements", and shall comply with all the provisions outlined therein.
